ACADEMY**

What is Chamet?

Chamet is a global **live video chat platform** where users connect through video calls, livestreams, and virtual gifting.

It operates on a **virtual economy** powered by:

Diamonds
(spent by users)

Beans
(earned by hostesses)

This creates a **monetization system** where **content creators** (hostesses) generate income, and **agencies** scale that income through management and recruitment.

How the Chamet Ecosystem Works

ROLE OF AN AGENT

What Does a Chamet Agent Do?

As an agent, your role is to:

Recruit
hostesses

Help them
get started

Monitor
performance

Build a
network of
sub-agents

Scale your
team
globally

You are not trading time for money —
you are building a **network-based income system.**

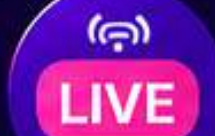

EARNINGS OF HOSTESSES

How Hostesses Make Money

Hostesses earn through:

Video calls:
1,200 to 6,000
Beans per minute

Live Streaming:
Earn from viewers
through diamonds
and virtual gifts

Gifts
from users

They can set their **own rates** depending on
demand and performance.

This is important because:

👉 The more your **hostesses earn** →
the more **YOU** earn.

You help them grow
their income.

They earn more.

You earn more
commissions.

COMMISSION SYSTEM

How Agents Make Money

Your income comes from:

- 1 Direct Hostesses**
You earn a % of their daily earnings.

- 2 Sub-Agents**
You earn the difference in commission rate between you and them.

1 Direct Hostesses

You earn a % of their daily earnings

The more your hostesses earn, the more **you** earn.

2 Sub-Agents

You earn the **difference** in **commission rate** between you and them.

COMMISSION DIFFERENCE CALCULATION

Their Rate: 10%
